

ENGLAND BEGIN POST-BAZBALL LIFE WITH ROUT OF PAKISTAN

Agencies

sport@hindustantimes.com

LEEDS: England launched their post-Bazball era with an innings and 103-run thrashing of Pakistan in the first Test at Headingley on Friday.

Pakistan, who were 5/2 in their second innings, lost four wickets for 25 runs on the way to being dismissed for just 135.

England pacers Josh Tongue and Ollie Robinson, who took all 10 wickets between them in Pakistan's meagre first-innings 171, once again did plenty of damage after express quick leftie Archer removed both openers.

The trio took three wickets apiece on Friday as England posted their seventh successive Test victory at Headingley, their longest sequence of wins at any home venue.

Recalled seamer Robinson was named player of the match for his overall figures of 8/80, while Tongue finished with 8/89. "It's a great way to start," said Robinson, who took a wicket with the very first ball of the match, at the presentation. "That's my job. I suppose, setting the tone and to get a wicket first ball is a great feeling."

A comprehensive win with more than two days remaining at his Yorkshire home ground was an ideal way for Joe Root to begin his second stint as full-time England Test captain.

This was just England's third win in 11 Tests, albeit against a weak Pakistan side.

"You look at the prep we had leading in, coming straight from The Hundred, the fact we're in a slight transition stage, but I thought the way that we dealt with all of that, the clarity and the way the guys approached this week has been outstanding," said Root.

Pakistan stand-in captain Sarfaraz Ali Akhtar said his side had been well beaten.

Brief scores: Pakistan 171 & 135 in 373 overs (M Rizwan & O Robinson 3/29, J Tongue 3/43, J Archer 3/50) lost to England 409 in 895 overs (H Brookings & A Usman 5/95) by an innings and 103 runs.

Flight and dip make Suthar a rarity in slam-bang cricket

The left-arm spinner keeps things simple and uses subtle variations that have seemingly gone out of vogue in the T20 era

Sanjeev K Samyal

sanjeev.samyal@htlive.com

MUMBAI: If the Sri Lanka batters are to flourish in the second Test at the Sinhalese Sports Club, they must somehow ensure Manav Suthar doesn't start well. Going by what we saw at Galle, once the left-arm spinner settles down, he is hard to shake off.

After taking a first-ball wicket in his opening spell of 6-43-2, the young Indian left-arm spinner made the difference in both innings, finishing with a 10-wicket match haul and proving central to India's 165-run win over Sri Lanka.

"I have seen many games where Manav bowls well in the first spell, the rhythm he gets into then changes the complexion of the game," said Anshu Jain, who was the Rajasthan Ranji coach last season.

"With the Rajasthan team, when he gets early wickets and bowls well in the first innings, he dominates the full game. In the first innings when he got a first-ball wicket, and bowled that first spell, it was a good sign. I felt he would run through the second innings, and he did just that," said Jain, who has alternated between Rajasthan's Ranji coach (2023-24 and 2025-26, and the U-23 side from 2021 to 2023).

Even on his Test debut against Afghanistan in June, Suthar took his first Test wicket (Abdul Malik) with his fourth ball, and went on to claim a six-for.

Classical style

In a game where spinners look to bowl flatter and quicker for fear of being hit, the 24-year-old's

Manav Suthar has taken 17 wickets in the two Test matches he has played so far.

classical bowling is a breath of fresh air. He is not afraid to flight the ball, looking to deceive batters in the air and with sharp turn. That was evident from the first ball of the Galle Test when he dismissed Dinesh Chandimal by inducing an edge to wicket-keeper Rishabh Pant off a ball that turned sharply and bounced as well.

Showcasing the qualities of classical spin bowling, the young left-arm spinner used drift, overspin, bounce and variations of flight to dismantle Sri Lanka in both innings. So far, the old-fashioned approach is working beautifully for him and in his first two Tests,

he has 17 wickets. For coach Jain, the key is that with the same action and arm rotation, Suthar is able to vary his pace.

"He consistently pitches the ball in the same area, but his trajectory is sometimes flat, sometimes flight. In that he is able to deceive the batsman. The arm ball he delivers, the batsman feels it is short of length, they go back to play, it gets them bowled or left before. And when the same ball, he releases a bit slower, gets the batsman to play forward, it spins more. That is an art, how the spinner deceives the batsmen in the air with variation in pace. His fingers move beautifully on the ball to give it a rip,

whatever qualities a classical spinner usually has, he has got them all."

Hailing from the border city of Sri Ganganagar in Rajasthan, to make an instant impact at the international level is quite impressive. Despite cricket facilities being not the same as the big metros, the left-arm spinner rose through the ranks through sheer hard work. As per his state coach, Suthar is another product of the 10,000-hour rule of dedicated, deliberate practice.

"Whatever discussions I had with him, Manav said he has always loved bowling. In the

cricket academy in Sri Ganganagar where Dheeraj Sharma was the coach, he used to bowl long hours—20 to 30 hours—which helped him develop muscle memory."

India's spin bowling coach Sai Raj Bahutule said that the young bowler is like a banker for the team with his consistency.

"He's very accurate; his trajectories are just getting better and better, puts in a lot on the ball, the revs are good, and he is somebody who's like a banker for us, consistently being in the lengths which we want," said Bahutule at the media interaction on Friday.

For the India coach, the bowler has a good understanding of his craft and it will be important to keep it simple. "We keep it very simple, to be honest, not complicate things and work on his strengths."

From here on, it will be about helping the player understand how to adapt to different conditions and plan against different batters.

"What we try to do is see how we can get that awareness of bowling in different conditions, different pitches, different batters, left-hand, right-hand, what is the need at that particular time, what would be the most effective way and what will be the ideal fields."

Along with his skills, Rajasthan coach Jain said Suthar's attitude, a lack of confidence in the senior spinner. Kuldeep, as the third spinner, is being left to make the most of the soft Kookaburra. That's only partly true.

In the first innings, Kuldeep came in immediately after the new ball spell by the pacers and got a boost when an early wicket would be taken after the pitch preparations were complete, but did not rule out the possibility. Some experts have questioned captain Shubman Gill's use of Kuldeep at Galle, citing a lack of confidence in the senior spinner. Kuldeep, as the third spinner, is being left to make the most of the soft Kookaburra. That's only partly true.

Kuldeep on thin ice, again

Rasesh Mandani

rasesh.mandani@htlive.com

MUMBAI: The Galle Test match was Kuldeep Yadav's first outside India for 44 months. His last outing outside the sub-continent was back in 2019 at Sydney, when then head coach Ravi Shastri famously, now infamously, declared the left-arm unorthodox as India's No. 1 overseas spinner.

Considering the staggered opportunities given to him by repeated team management—19 Tests in his 10th year—it is evident Kuldeep is seen as a conditions-specific spinner. Best suited to play at home when tailored pitches encourage playing three, sometimes four spinners. Akin to India playing the third pacer only outside the sub-continent.

Therefore, it would not be a major surprise if Kuldeep, following his below-par showing at Galle, is asked to make way for off-spinner Saransh Jain in the Colombo Test match starting Sunday.

Sri Lanka is likely to go with a left-hand heavy batting lineup, having added Kamil Mishara and Sahar Arachchige to their squad in addition to the impressive Sonal Dimutha and Niroshan Dickwella. Indian spin bowling coach Sai Raj Bahutule said a final call would be taken after the pitch preparations were complete, but did not rule out the possibility. Some experts have questioned captain Shubman Gill's use of Kuldeep at Galle, citing a lack of confidence in the senior spinner. Kuldeep, as the third spinner, is being left to make the most of the soft Kookaburra. That's only partly true.

One is a domestic veteran too. In the first innings, Kuldeep came in immediately after the new ball spell by the pacers and got a boost when an early wicket would be taken after the pitch preparations were complete, but did not rule out the possibility. Some experts have questioned captain Shubman Gill's use of Kuldeep at Galle, citing a lack of confidence in the senior spinner. Kuldeep, as the third spinner, is being left to make the most of the soft Kookaburra. That's only partly true.

At SSC, the choice is between two spinners, both who deal in flight and guile, but test different edges of the bat.

With competition heating up and a five-Test home series against Australia next year, the chosen one can ill-afford to fail.

Kuldeep Yadav.

match, Kuldeep's spells came with the softer ball, ill-suited for his relatively slower average speeds. Ravindra Jadeja feels at home with such a task while Manav Suthar was able to successfully make the adjustment, pushing his speeds above 90 kph and without losing control.

"Kuldeep has been bowling extremely well. He had to play a different role in the last Test match and he tried his best to adapt and execute," Bahutule said, adding that the pitch got slower and slower and that Kuldeep was trying to bowl quicker under instructions.

There will come a time when the Indian team will have to examine whether pushing Kuldeep to bowl higher speeds impacts his overall effectiveness.

If it compromises his inherent strength to flight the ball and hampers his ability to spin it, he may be best left to bowl at speeds he is comfortable with.

Kuldeep was expected to take over as the frontline spinner after R Ashwin's retirement. But the emergence of Suthar provides India with a credible alternative. In theory, Kuldeep continues to get the backing. In practice, India often offers that not takes the pragmatic approach of backing the finger spin all-rounder in away Tests.

At SSC, the choice is between two spinners, both who deal in flight and guile, but test different edges of the bat. One is a domestic veteran too.
